INVITATION

MISS WORKSHOP
SATARA - AUG, 24

Dear Friends...

All of us are aware, live streaming of surgical demonstrations in conferences is banned by the honourable Supreme Court. Surgical skills cannot be mastered merely by lectures or video presentations, so we have decided to arrange 'Hands-on Surgical Workshop' which will give you exposure of conventional, Minimally Invasive Surgery (MIS) & Endoscopic Spine Surgery.

Through this workshop, you can have hands-on with advancing technologies in Spinal Surgery like MIS, Navigation, Percutaneous Pedicular Screws and various Endoscopic Modalities, apart from Percutaneous Procedures like Nerve Root Blocks and Vertebroplasty. But until and unless you don't assist masters, you can't get the kick start.

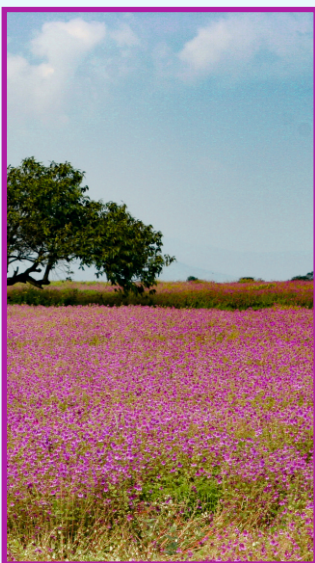

Every delegate will get a chance to assist at least one procedure with legends in minimally invasive spine world and practice on saw bone model.

Technical know-how of various hardware systems available in the Indian market for conventional & Percutaneous pedicular systems will be available for practice on Saw Bone Models along with C-Arm and Navigation guidance.

This will be a worthwhile experience to practice and assist minimal invasive spine procedures with legends.

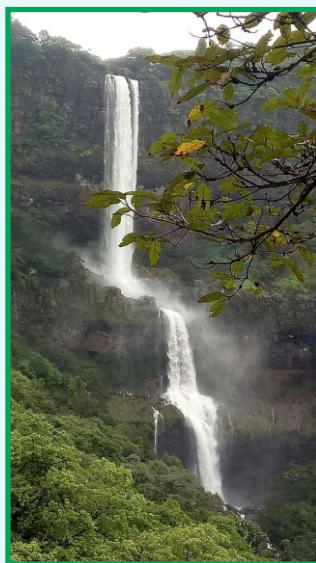

TOURISM

* **Tourism Advisory:** The following tourist destinations are recommended for individual exploration only; they are not included in any of our workshop.

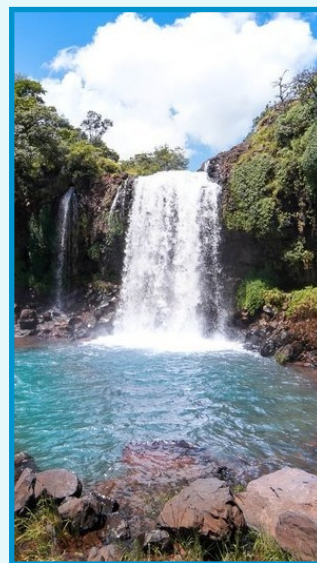

Kass Plateau

Biodiversity Flora & Fauna, Lake - 18km

Vajrai Waterfall

Tallest Waterfall of India, Scenic - 22km

Thoseghar

Series of Waterfalls, Scenic Spot - 26km

Chalkewadi

Windmill Farms, Serene Place - 30km

Dr. Sushil Patkar

Dr. Patkar, an eminent neurospinal surgeon and pioneer in the anterior approach for C1-C2, is also a master in conventional TLIF and PLIF. A perfect understanding of the basics of conventional surgery is essential for learning any minimally invasive surgery. He will be demonstrating conventional TLIF.

Dr. Rajkumar Deshpande

Dr. Deshpande, one of the early MISS spine surgeons with more than 20 years of experience with the Tubular System, will explore MISS TLIF with his exceptional skills.

Dr. Anil Patil

Dr. Patil, with extensive experience in microendoscopic procedures through tubular systems and early expertise with the O-arm and navigation system, will elaborate on his proficiency with these advanced high-end technologies.

Dr. Ketan Deshpande

Dr. Deshpande, a dedicated UBE spine surgeon, will enthusiastically elaborate on UBE discectomy and endofusion in an artistic manner.

SCHEDULE

MISS WORKSHOP

SATARA - AUG, 24

DAY 1		Saturday, 17 August, 2024.		
TIME	OR-1 (O-arm with 3D Navigation)	OR-2 (C-arm with 2D Navigation)	OR-3 (C-arm)	
08:00 to 12:30 PM	Case 1 - MIS bilateral decompression with over-the-top technique for degenerative lumbar canal stenosis. By - Dr. Anil Patil	Case 2 - Conventional TLIF demonstration. By - Dr. Sushil Patkar	Case 3 - UBE lumbar discectomy. By - Dr. Ketan Deshpande	
12:30 to 01:30 PM		Group Discussion with Lunch		
02:30 to 05:30 PM	Case 4 - MIS TLIF with O-arm and 3D Spinal Navigation. By - Dr. Rajkumar Deshpande	Case 5 - MIS lumbar discectomy. By - Dr. Anil Patil	Case 6 - Vertebroplasty By - Dr. Vinod Jagtap	

DAY 2		Sunday, 18 August, 2024.		
TIME	OR-1 (O-arm with 3D Navigation)	OR-2 (O-arm with 2D Navigation)	OR-3 (C-arm)	
08:30 to 12:30 PM	Case 7 - Cervical MIS Fragmentectomy and/or Foraminotomy. By - Dr. Anil Patil	Case 8 - MIS TLIF with C-Arm and/or 2D Spinal navigation. By - Dr. Rajkumar Deshpande	Case 9 - EndoTLIF with expandable cage by UBE. By - Dr. Ketan Deshpande	
12:30 to 01:30 PM		Group Discussion with Lunch		
02:30 to 05:30 PM	Case 10 - Percutaneous In situ Fixation for Fractured spine with O-arm and 3D navigation. By - Dr. Anil Patil	Case 11 - MIS Foraminal/ Extraforaminal Fragmentectomy. By - Dr. Rajkumar Deshpande	Case 12 - Nerve root block. By - Dr. Vinod Jagtap	

Note: Delegates are expected to arrive on the evening of Friday, 16/08/2024, as the workshop will commence sharply at 8 AM on 17/08/2024.

HANDS ON SAW BONE

MISS WORKSHOP
SATARA - AUG, 24

Table 1: Percutaneous Screw Insertion (Pitkar)

Table 2: Percutaneous Screw Insertion (Medtronic)

Table 3: Decompression through Tubular/Expandable Tube

Table 4: Decompression & Facetectomy through a Tubular System

Table 5: UBE Decompression

REGISTRATION DETAILS

Fee: ₹15,000 per delegate

Note: ₹3,000 extra per accompanying person

Inclusions:

- 2 Days + 2 Nights Stay with Single Occupancy
- Breakfast, Packed Lunch, and 2 Dinners
